Mrs Carrie LAM
The Chief Executive
Office of the Chief Executive
Hong Kong Special Administrative Region
People's Republic of China
Tamar, Hong Kong

(By post and email: ceo@ceo.gov.hk)

Dear Carrie,

During these turbulent times in Hong Kong we felt it appropriate to extend our steadfast support to you and your administration. We understand the intense pressure that is being unfairly bought to bear on your office.

To date your administration has been run in a positive and caring manner that has been in the best interests of Hong Kong's society and economy as a whole and long may this continue.

The ill-advised events of recent times do nothing but damage Hong Kong's image, both regionally and globally, distorting the true picture of the highest standards that our communities benefit in the areas of education, healthcare, housing, employment, infrastructure and our own industry of construction. We are clearly a world class international city which continues to march forward continually advancing our standards on all fronts.

We shall continue to support your administration fully, particularly in infrastructure and building construction, which we continue to suffer from a restricted pipeline of opportunities that would, if released, would ensure our industry would flourish and enable us advance using the latest innovative methods the industry has to offer globally. We have a strong belief that your administration can overcome the frustrating filibustering tactics employed and release these projects for the benefit of our industry and society at large.

The EMCA having always enjoyed a friendly working relationship with you over the years, and with the Secretary of Development, and will continue to maintain this positive and constructive friendship in the future.

We wish you good health and success in continuing forward.

Yours faithfully,

Gilbert TSANG
President
